

Rawah Project - Team Task Distribution

Project Idea:

A therapeutic travel app that helps people find and book tailored trips for rehabilitation and mental wellness, such as retreats and relaxation programs. Its goal is to combine the joy of travel with psychological support in one simple, integrated experience.

Team Members:

Shrouk (Team Leader), Mohamed, Basma, Tasneem, Fatma

Research

Member	Task
Shrouk	Prepare survey + interview questions
Mohamed	Competitive analysis of similar apps
Basma	Research wellness & travel trends
Tasneem	Conduct 2 user interviews and collect insights
Fatma	Summarize findings in a short report

Personas & User Journey

Member	Task
Shrouk	Create the User Journey map
Mohamed	Write detailed Personas
Basma	Design simple visuals for Personas
Tasneem	Draft user scenarios
Fatma	Organize all into a clean document

Wireframes & UX Design

Member	Task
Shrouk	Sketch main wireframes
Mohamed	Suggest feature ideas
Basma	Design low-fidelity wireframes
Tasneem	Review text/flows
Fatma	Document the process with screenshots

UI Design

Member	Task
Shrouk	Ensure consistency across screens
Mohamed	Suggest colors/images
Basma	Design high-fidelity mockups
Tasneem	Write UX copy (onboarding, buttons, errors)
Fatma	Check accessibility guidelines

Usability Testing

Member	Task
Shrouk	Prepare test plan + questions
Mohamed	Test with 2 users and take notes
Basma	Observe first impressions
Tasneem	Review content readability
Fatma	Collect and summarize feedback

Final Documentation & Presentation

Member	Task
Shrouk	Present project overview + leadership role
Mohamed	Present research results
Basma	Present design screens
Tasneem	Present user flows and content
Fatma	Present final summary + conclusions
